

Oregon Solutions Project Evaluation Criteria

- Criteria 1: Provide a brief description of the project, including the benefits derived from accomplishing the project.
- Criteria 2: Does it comply with the Project Team's stated goal?
Reduction of unacceptable flooding impacts in the Tillamook Basin that reduces the economic impact of flooding while recognizing environmental, social and human values in the short term, and in some cases, the long term.
- Criteria 3: What would happen if this project was not accomplished?
- Criteria 4: Does the project have strong community and agency support?
Who are the responsible/lead parties?
Who are partners that need to be involved?
- Criteria 5: List identified or potential funding sources to carry out the project.
What is a rough cost estimate to complete the project?
Will this project take additional funds to sustain the outcome and are there operating or maintenance costs associated with the project?
- Criteria 6: Is this project characterized as a short or long term solution for the Team's stated goal?
- Criteria 7: List the approximate time frame for implementation.
- Criteria 8: Can the project be easily implemented? List the requirements for permits, logistics, EIS work, etc.
- Criteria 9: Outside of permits and funding requirements, list any impediments/obstacles to accomplishing the project. List possible solutions to those obstacles.
- Criteria 10: Is the project compatible with, or support recommended action items contained in, the Tillamook County and Tillamook City flood mitigation plans?
