

Chiloquin Elementary Spring Carnival
Vroom activity

Early Literacy Kits

Klamath Tribes/Chiloquin Community Early Literacy Project **"Our Community Supports Early Literacy"**

On June 3rd, the Vroom Action Team participated in the Chiloquin Elementary Spring Carnival. This was one of the Klamath Tribes/Chiloquin Community Early Literacy Project's first outreach efforts. Students and project team members helped parents and caregivers download the Vroom mobile application - Daily Vroom - onto their smart phone. Vroom post cards and TIP rings displaying age appropriate activities were also distributed. The Daily Vroom app is a free resource to help busy parents and caregivers boost children's learning while doing normal, everyday activities. Two lucky participants won \$25 gift cards for participating and downloading the app on their phone.

Chiloquin Jr/Sr High School students, staff, and Project Team members helped "stuff" the Early Literacy Kits on July 2nd at the Chiloquin Community Center. The Early Literacy Kits are part the Klamath Tribes/Chiloquin Community Early Literacy Project. The bags are printed with images representing the local area and are filled with items to use with children to help prepare them for school. Early Literacy Kits are geared for children aged 0-6 and are available at the Chiloquin Library.

Future planned project efforts include distribution of posters and other early literacy materials plus the "unveiling" of a community Electronic Message Center sign to be located near downtown Chiloquin.
