

Federal Forest Working Group

Monday, September 22 2014

1:00 – 4:00 p.m.

University Place at Portland State University
310 SW Lincoln Street - Wahkeena Fall Room
Portland, OR 97201

MAP LINK: <http://www.uplacehotel.com/maps-transit/> *

Conference Call-in Number: 1 888 585 9008

Participant ('Room') Code: 322 674 124

Work Session Purpose: To review implementation of the state's Dry-side Federal Forest Health Program to date, meet with the USFS Regional Forester for discussion, and continue dialogue about a 2015-17 program.

AGENDA

- 1:00 Welcome & Agenda Overview
- 1:05 Introductions (including those on the phone)
Brett Brownscombe, Governor's Office
- 1:15 USFS Region 6 Dialogue
Jim Pena, Regional Forester and Becki Heath, Deputy Regional Forester
- Regional Forester's opening remarks / overview
 - Questions and Discussion.
- 2:15 Break
- 2:30 Oregon's Collaborative Federal Forest Health Partnership and Program:
Current and next iteration
- Update re. \$2.885 implementation and recent legislative hearing--*Chad Davis, ODF*
 - 2015-17 State budget development discussion--*Brett Brownscombe, Governor's Office*
 - ODF agency request—content / scope
 - Governor's Budget process and initial feedback
 - FF Work Group feedback / shaping the budget package – discussion.
- 3:30 FFWG Purpose and Vision Statement (*Attachment A*)
Pete Dalke, Oregon Solutions
- Review proposed draft revisions
 - Action item: seek agreement to finalize revisions.
- 3:45 Updates and topics to consider for addressing in more detail at upcoming work sessions:
- October Field Tour
 - Calendar – November work session date, Dec Leadership Summit date
- 3:55 Wrap up and adjourn

* Please note that parking is available for \$3 an hour in the University Place parking lot.

ATTACHMENT A

Federal Forest Working Group Purpose & Vision Statement

September 2014 proposed revisions

The following revised Purpose and Vision Statement is offered for guiding the efforts of the FFWG going forward:

“The purposes of the FFWG are to:

- Advance collaboratively driven landscape-scale, active restoration of federal forest lands;
- Identify and remove policy and financial barriers; and
- Promote innovative policy and financial solutions to restoration of forest and watershed health.

We will:

- Provide a forum for collaborative groups, federal and state agencies, counties, tribes, and interest groups to raise and solve barriers to accelerated restoration on federal lands (Forest Service and BLM);
- Support and contribute to maintaining and growing our innovative Federal-State Partnership that demonstrates new governance structures and ways of doing business together;
- Identify and test new governance structures that provide for meaningful involvement of community and collaborative leadership;
- Articulate the need for a consistent supply of timber offered through restoration and forest management that is collaboratively supported; and,
- Work together to identify and secure increased, consistent, and/or diverse funding of collaborative approaches and implementation of landscape scale restoration projects.

These activities will restore forests, help sustain communities by creating jobs and maintaining forest-sector infrastructure, and enhance Oregon's energy independence. The IWG will initially focus on the dry, fire-prone forests found east of the Cascades and in the southern interior of Oregon.”

For reference: Below are the draft revisions brought to the 8/6 FFWG work session. Shown are the “tracked changes” from the original 2011 FFAC-IWG Purpose and Vision Statement.

“The IWG is focused on supporting landscape-scale, active restoration of federal forest lands by identifying and removing barriers to restoration of forest and watershed health.

We will:

1. ~~help collaboratives identify local forest health priorities, develop landscape scale forest restoration plans, and find agreement for active management;~~
- 2.1 coordinate an on-going working dialogue of policy considerations and changes needed to address barriers brought forward from the collaboratives; and provide a conduit to the USFS Regional Office for direction and/or support to expedite collaborative landscape scale project implementation,-
- 3.2 advocate for sustainable and predictable supply of biomass and merchantable timber, ~~and~~
3. advocate for continued funding and new supportive state and federal policy to advance these efforts, and
4. pursue a new collaborative governance structure including local collaboratives, the State and the Federal government to implement forest restoration and management activities.

These activities will restore forests, help sustain communities by creating jobs and maintaining forest-sector infrastructure, and enhance Oregon's energy independence. The IWG will initially focus on the dry, fire-prone forests found east of the Cascades and in the southern interior of Oregon."
