

Goals

- Review Planning Process
- Identify Roles and Responsibilities
- Highlight Coordination and Compliments of OPRD/OS-CS
- Plan Elements

Assessment

Data Gathering
Condition Review
Standards
Coordination

Connection Teams

3 Roles

- Early information (Robin's Questions)
- Alternative Analysis in Draft Plan (Jan 2020)
- Funding/Implementation

A network diagram with a central circle containing text. The background is a light gray with a network of nodes and lines. A large, thick gray circle is centered on the page, containing two sections of text. The text is white and lists assumptions for 'Connection Team' and 'Segment Team'. The network consists of various nodes (some solid black, some white) connected by thin gray lines. Some nodes are arranged in a circular pattern, while others are scattered. There are also some larger, semi-transparent gray shapes in the background.

Connection Team Assumptions

- Not all areas have or are ready for a team
- Early Assessment and Drafts will focus in on the roughly 1/2 that are ready
- By final draft a team will need to be in place

Segment Team Assumptions

- They provide a higher level view and support
- Give weight and priority
- Input at critical stages to provide the best information to the Action Plan

ACTION PLAN

- Planning Effort
 - Result will be a document that is approved/adopted/accepted/acknowledged by all jurisdictions
 - At least two more public meeting rounds
 - Continual Check In with Statewide OCT

Action Plan Timelines

April 2020

- Public Meeting Round 2 Complete
- Connection Team 1 Complete
- Segment Team 1 Complete
- Draft Concepts Released

September 2020

- Public Meeting Round 3 Complete
- Connection Team 2 Complete
- Segment Team 2 Complete
- Final Draft - Dec Adoption

PLAN Contents

- Overall Description
- Natural and Cultural Resource
- General Conditions/Proposed Uses/Landscape Context
- Development Goals and Standards
- Planning Steps
- Implementation/Maintenance Strategies
- DOC
 - Economic Connections
 - Marketing
 - Cooperation/Connection Groups
