

**Attachment A: Blue River Drive Design**

*Draft Evaluation Criteria*

Draft Evaluation Criteria	Design 1	Design 2	Design 3
<b>Creates safety</b> for all modes of transportation (bicycling, walking, driving, riding LTD, or school bus)			
<b>Connects and provides access</b> for all modes of transport through the corridor and adjacent lands.			
<b>Minimizes property and environmental impacts</b>			
<b>Has community support</b> - design meets the identified needs.			
<b>Equitable</b> (no one is left behind, especially vulnerable populations with lower incomes, disabilities, etc., supports local businesses)			
<b>Place Making</b> – supports sense of place. Connects the west and east ends of the corridor for a complete community. Recognizes the unique needs of the school and track at the west end and the downtown area at the east end.
