Kim Travis – Oregon Solutions

Pete Dalke – Oregon Solutions

Jill Fuglister – Coalition for a Livable Future

Jesse Engum – City of Gresham

Sue Safford – Port of Portland

Theresa Emery – Leathers Fuel

Thomas Endicott – SeSequential Biofuels

Jennifer Porter – City of Portland, Office of Sustainable Development

II. Today's format:

Small group work:

Everyone split into their four project groups: Interstate Fleet Equipment Upgrades, Neighborhood Fleet Equipment Upgrades, Biodiesel/Fuel Tanks, and Facilities with fleets coming and going but are owned by other firms. See group project sheets for project goals, identified barriers and commitments by project shareholders.

Large group work:

The large group reconvened to share the results of the small group discussions. This allowed for any new ideas/connections to be expressed by stakeholders that had been participating in other groups. These ideas have been added to the project sheets.

III. Declaration of Cooperation – commitment editing and media signing event

The next meeting will be the formal signing event for the Declaration of Cooperation (DOC). This is the official document that outlines the purpose of the program, the four projects that have been developed and the individual commitments from each stakeholder. Draft commitments were passed out and stakeholders had an opportunity to edit those commitments during the meeting. Commitments that need further review can be emailed to Kelly Hoell. All commitments need to be sent to Kelly **no later than June 9th to ensure inclusion in the final Declaration of Cooperation.**

Contact Kelly Hoell at 541-341-4663 X17 or Kelly.hoell@goodcompany.com to submit your commitment.

The next meeting will be the signing of the Declaration of Cooperation:

June 22, 2006

10 AM -12 Noon

Location to be determined

Representatives from Governor Kulongoski's office, ODOT, DEQ and the media will attend. All project stakeholders are invited and welcome. Please save the date and plan to attend. More information will follow. Please RSVP to Kelly Hoell.

IV. EJAG Ongoing Program Development

Jeri Williams of the Environmental Justice Action Group made a presentation about their organization, as they will be managing the on-going diesel emissions reduction program. They have developed three Public Service Announcements that they shared with the group.

V. Meeting Adjourned
